Patent Workshop 13.10.2022

Gujarat Technological University (GTU) organized basic to advance level workshops on patents and its aspects. GTU TISC was inaugurated by Mr. Amit Shah, Hon'ble Home Minister of India on the occasion of Bhumi poojan at Lekawada campus, GTU on 27th Sept, 2022. GTU-TISC provides free access to paid patent database PATSEER to students, faculties, and researchers for the preparation of PSAR or for research work. The workshop is designed for Ph. D students and P. G. students. An eminent speaker from the industry was invited Mr. Manan Shroff, Senior manager - Global IP at INTAS Pharmaceuticals, Ahmedabad. A total of 60+ students actively participated in this program from various GTU PG schools and Ph. D Students as well.

The students were not only guided for their approach to patent filing but also were introduced with the rules and the process of Indian Patent filing. They were also introduced for how to do patent searches and how they find out whether their project is fall in patent criteria or not.

The event started off with a welcome address delivered by Mr. Sudeep Ambare, CEO-GISC. Secondly, the introduction to GTU-GISC was given Ms. Glory Carpenter, Incubation Associate. Thereafter, the activities and roles of the GTU-IPFC was given by Ms. Shailja Jhala, IP professional GTU-IPFC. Then the event proceeded with a brief introduction of the invited speaker. Thereafter, the session started.

The workshop was divided into two session:

1. The importance of registration of patent after completion of the research project"
2. Hands-on training on paid patent database PATSEER

Furthermore, after these informative sessions, the participants were further invited for an open interactive session with some fun games. The vote of thanks was delivered by Ms. Shailja Jhala, IP professional, GTU-IPFC. The participants
